

22/01/26

9:30 – 11:30

Due to my stomach pain I slept till 9:30. And since it was a mess I had to wash my bedsheet clothes and everything.

Then I washed everything, took bath and brushed and came out

Then I put to dry everything and went downstairs to eat

I did not do work due to my stomach pain

So today I planned to skip my work (something I usually do I take rest on my second day)

11:30-12:30

As soon as I came down I had a glass of water

I was going to eat boiled eggs but then I remembered there is fish that is fried

Hence I heated the fish I fried last night. I heated 2 of them

Then I heated some sandwich stuffings

And I paired them up with chapatti

Then hot patie came out of her room hungry and asked me to give her something to eat

I got angry on her since she doesn't make anything for her and is hungry all the time and that is not good and cool patie who is older than her does everything

There were only 2 chapatties so she asked me can she take 1 and I said take it

She doesn't eat fish so I gave her an egg. She asked me to fry it but I said no you fry it for yourself, atleast she will do some work and keep her body active

First she was like no then leave but afterwards she prepared and ate.

Then after having breakfast I came upstairs

11:30-12:30

I washed my hair yesterday, so I wanted to oil them today

I wanted to make a hair oil of coconut almond mustard and castor oil

But castor oil was not there

So I went to bhel chowk to buy castor oil, the place where mumma buys her mehendi from

Then I came home heated all the oil

In that oil I first went to the backyard and plucked some curry leave and then I plucked some hibiscus flowers and leaves

Then I came inside chopped some onion

In the oil I added fenugreek seed, rosemary, curry leaves, hibiscus flowers and heated them on a low flame for 20 mins

Then I let it rest and then applied it on my hair and massaged my head

Then I saw an opening on LinkedIn

And I was seeing about that role as it was an opening for 0 experience people

1:30-2:30

Then I corrected my CV and cover letter as per the role and I was seeing information since they have asked to share our view on something

I have not completed it yet since the last date is 31st

But after that I took a pause to refresh my mind. Took a small stroll downstairs and once again started reading that book

Today I was determined to read another 10 pages of the book so that I could build a reading habit

But then I felt sleepy after 5 pages only.

Today I read that the girl was leaving to go ask the captain what happened. The captain says that we are going to sink hurry up. So she goes back to her room . and over that her stupid boss again says why did you leave me alone. The girl says this is not the time for this lets leave. And then she says I cannot leave like this and she was completed shivering because of the fear so she helps her out. But she was expecting too much from her she was like get me my coat and all also. So when I read that part I started disliking her boss as she was weird . but paitently the girl helps her. Yet the women who was her boss was like how can you be like this and all and stating she would fire her. The boss character was making me hate her ☺ she was weird

After reading that I wanted to take break and I left for break and saw my whatsapp for some time. Drank water and came up

2:30- 3:30

Now I did not want to continue reading book so I read bible. Today I read exodus 22 since I wanted to complete all the stories from old testament.

It was all about if someone kills anyone or an animal kills anyone how the owner is supposed to compensate. Its about that its about robbery, murder, adultery rules and compensations given there.

It also mentions the laws about social justice basically how a human should treat another human and if not done properly what are the consequences.

Then in the new testament I read about the parables

1. How a person who has somethings gets multiplied and who has nothing even that is taken away from him
2. The parable of the sower

Then I read about how Jesus feeds the 5000

And how a person known from their fruits ie the fruit of spirit

And about resting on the sabbath day

3:30-4:30

I got up and was walking for some time for freshening up myself. I went down drank water and checked if something was there to eat and meanwhile my waffles arrived and I had them. It was tasty they were 4 different flavors so they all were tasty by they were not crunchy but since they were tasty I had them.

Then I was in the washroom and Anna gave me a call and he asked me why did I not write and scolded me

And then he asked me to write what I did the entire day

The thing was He said to write 15 pages but I read that as I want what you did in 15 hrs all details

Hence I just gave heading on what I did and did not write in detail

But then he told me to write in detail

Then I spoke to him about the opening but he asked me to focus on what he is telling and not get confused and rushing to do something stupid again

Which I felt quite valid and then he had some work and cut then call

After the call I started to write what I did the whole day yesterday in detail

And that took a lot of time

4:30-5:30

I am still writing what I did yesterday in detail

But now Sushila aunty came home and she was calling didi didi

And I thought Sheela aunty is calling Sudha aunty and I did not respond. Mumma then calls me asks aunty is calling why aren't you opening the door. Then I told no this is going on in the neighborhood. And mumma scolds me and tells no go open the door. And I tell this to Sushila aunty and she said that u must have felt that because I was calling you from behind.

And then we all started laughing

After this I continued writing what I did yesterday in detail

5:30-6:30

While I was writing

Papa comes home, and without telling anybody he leaves somewhere.

Then mumma asks me to make her an omelet. So I take a break and go to make her an omelet.

When I see there are only eggs and there was no chapattis. I called papa to ask him get bread while he was returning

But he doesn't pick up my call

Meanwhile I am making omelet using onion turmeric and some grinded powder.

The omelet is done and mumma is done taking bath and she comes down. Then papa calls back and says that he went to cut his hair. And by the time we asked him to get bread he was already home.

6:30-7:30

Since there was nothing to eat with omelet, we requested papa to go get some.

Then papa went to get bread as I made an omelet for him also. Meanwhile Mumma eats her omelet thinking there are extra eggs in the house. I then told mumma why are you eating now there are no extra eggs. Then when papa came, she took some from papa's share. And told papa you should have eggs also. But somehow both managed to eat what was there

Then I applied rosemary water on my hair and mumma asks me if there is something with which papa can eat bread, I told there is yesterday's chicken stuffing. But papa said he will eat that in the night.

Then I kept rice to cook and even I eat the bread with chicken and my dinner was done

Looking at what I was eating mumma got tempted to eat. First she asked me for a bite. Then again she asked me. And then she asked me to make her one.

Then hot pattie also tells to make one her

So I make for mumma papa and hot pattie

Cool patie ate bread yesterday so I din ask her but mumma gave her rice, then mumma asked to give cool pattie and I was like no. then cool patie started saying she always does that to me. But I din wanted to fight with since I had work so I came upstairs and continued writing what I did yesterday

7:30-8:30

I am writing what I did yesterday.

Then papa calls a relative since they are coming to visit our house tomorrow

And then papa was dying his hair and asked me to help him put it behind

Then again I continued to write what I did yesterday

While I was writing mumma was preparing for tomorrow's breakfast. And then I discussed with her what to cook when the guest come.

And mumma said lets plan that later and she continued with her preparation and I continued to write my updates of the day.

Finally at 8pm I finished writing what I did yesterday, and then started with today's updates.

8:30-9:30

I was writing what I did today . while I was writing anna's call comes. But I wanted to finish so I did not go downstairs. Then mumma asks anna what work has he given me that I am so involved in the laptop and not even coming to talk with you. Then anna tells me never say your in the flow so ill do that later. What needs to be done now do it right now.

Then I go downstairs and talk with anna. We talk about the joke that happened in the apple store about iphone 5 se. and how mumma lost or broke all her old phone and only bought the best phones

Then I spoke with anna about how to quickly learn new skills. and how we should make our brain fast and stop seeing unwanted stuffs .

Then we spoke how people are going to foreign country to purse education and it is not required if we use the same amount of efforts in india.

9:30-10:30

Spoke with anna about doing household chores, improving whats wrong and to do everything by yourself and not depend on others

So I decided that I will buy curtains as soon as possible and put them in my room, and learn how to use a drilling machine and put all the things I wanted to in my room. And not delay it by sayig no one is doing it for me. And start doing things by myself.

We also spoke how self learning is useful that being dependent on others to learn. He gave me an example of how I learnt to cook. So in our adulthood there are no failures they are learnings. There is either success or learnings there is nothing called failure.

And then we spoke about how people succussed in their life. He gave me examples from church people.

Then anna wanted to do some work and he cut the call.

Then I went to mumma papa and spoke with them

10:30- 11:00

I then spoke with mumma about the meal preparation. And we decided that we will make bread omelet for breakfast, sambar rice chicken fry for lunch and something light for dinner. And on Sunday we will go to church and have breakfast there and then we will take them to empress garden and have lunch out and accordingly decide what to make on Sunday.

And then papa had to go out to make a signature. I spoke with mumma about other trivial matters.

And this went on till 11:00 and then she asked me to go to the kitchen and keep the things in the fridge.

And then I sent the screenshot of my screentime to anna and then I am going to sleep.
